The Best Security Starts with Your Monitoring Company
Alaska Automation Center

We specialize in Monitoring Security • Lighting • Energy & Task Management
• Entertainment • Video Surveillance • Remote Control.

Protection and Peace of Mind

Your home should be a place where you and your family feel safe and comfortable. Elk's M1 systems are designed to reduce the stress and worries of home management so you can relax from today's busy lifestyle in a safe, cozy, inviting home.

At the core of every M1 system is a rock solid burglary and fire detection system.

Sensors placed throughout your home provide multiple levels of protection allowing the M1 System to detect and report intrusion, fire, smoke, and carbon monoxide.

Motion Sensors

Smoke, Heat & Carbon Monoxide Detectors

Window Contacts & Glass Break Detectors

Door Contacts

• Expandable to meet your specific needs; monitor up to 208 different areas of your home.

• Supports multiple user codes; permanent codes for family members, and temporary codes for guests, service persons, etc.

Control is at your fingertips
with attractive, easy to use touchscreens

Control security and automation, plus access your favorite websites, with the touch of a finger. The 7" super bright display is easy to read and easy to use.

- Arm & Disarm Your System
- View the Event Log
- Control Lighting
- Adjust Climate and View Temperature Sensors
- Activate Tasks
- Turn devices On and Off
- Make Changes to Your Custom Settings
- Access Your Favorite Websites
- View Cameras
- Control Whole House Audio

Touchscreens

*Control lighting for security,
energy savings, and ambience*

Display the beauty of your home, indoors and out, with different light intensities and lighting moods.

Set the mood for entertainment or quiet relaxation.

Save on energy bills by automatically controlling lights and electrical devices based on your schedule or occupancy of the home using M1's energy management

Give your home a "lived in" look while away on vacation.

Simple control of outdoor lights; such as floodlights, garage door lights, landscape lighting and more.

Deter burglars with exterior lighting.

Lighting

Relax...

Climate control provides comfort, convenience, and energy savings

Our climate control features give you all the flexibility you need to ensure that your home is comfortable, while taking advantage of energy savings.

M1 makes it easy to set and forget your seasonal preferences for climate!

Ask your installer about adjusting temperature even if you are miles away! Great for controlling second homes.

Climate Control

*Voice guides you through your system,
eliminating the guesswork*

A comforting voice guides you through the use of the system and advises status such as:

- A door has opened
- A water leak has been detected
- The temperature of an area or freezer is too high
- You have a visitor
- Your child is home from school
- Etc...

If you are away from home, these messages can be delivered to your office phone, cell phone, neighbor's phone, etc.

Telephone Remote Control

Access and control your M1 system from any telephone, anywhere. Helpful voice prompts guide you through your system.

- Arm/Disarm Security System
- Control Lighting
- Adjust Climate Controls
- Turn Devices On/Off
- Activate Tasks

Convenience of Voice

Relax...

Control your system from
Any PC, Anywhere!

Remote Control via the Internet

View a secure, virtual keypad of your home, then point and click your way through the entire system. Ensure that everything is secure and running smoothly; if not, make the desired changes.

Easy to use screens make controlling your system effortless, whether you are at home or away!

- Arm/Disarm Security System
- Control Lighting
- Adjust Climate Controls
- Control Outputs
- Activate Tasks

Receive event notification and reminders via email!

Remote Control

Relax...

Easily control your system
from your home PC or PDA

Get total control of your system with easy to use, remote management software on your desktop and laptop computers. You can also control your system from your PDA.

Remote Management software allows you to:

• Arm & disarm your system

• View the event log

• Control lighting

• Adjust climate and view temperature sensors

• Activate tasks

• Turn devices on and off

• Make changes to custom settings

• Access your favorite websites

• View Cameras

• Control Whole House Audio

Remote Management

No codes to remember!

M1 simplifies your life by eliminating the need to remember another code or password, while reducing false alarms. Arm and disarm your system with convenient cards or keychain fobs. A better solution for children and elderly adults!

Cards are the perfect size to be kept in a wallet or outside pocket of a purse.

The small, thin design of the keychain fobs won't make your keychain bulky!

Code-Free Operation

Relax...

Eliminate False Alarms with
Automatic Verbal Verification

False alarms waste the time of police, fire departments and emergency services. Homeowners may be fined for false alarms in certain areas. Audio verification helps reduce costly and embarrasing false alarms.

Audio Verification is automatically activated by M1 when an alarm occurs allowing the monitoring station to speak with you to verify that there is an emergency.

Using the telephone remote control feature[*] you can hear and talk to anyone in your home. This feature is great for checking in on elderly loved ones.

* Not available on all systems

Audio Verification

Relax...

More Convenience, Less Mess

Wireless keyfobs provide a convenient way to control your system.

- Arm/Disarm the Security System

- Open and Close the Garage Door

- Turn On Exterior Lighting

- Etc...

Wireless sensors can be installed with less mess in an existing home. Also great for adding to a M1 system that is already installed.

Wireless

Relax...

Relax...

Imagine a system that manages your home while givng you more time to unwind. An effortless system that anyone can use. Get ready to experience how M1 simplifies your life by offering a variety of conveniences for an enjoyable lifestyle.

You will be glad it is a part of your life.
